A LIST OF MANUFACTURING FIRMS IN BRITISH COLUMBIA

SEGREGATED IN SIZE GROUPS ACCORDING TO EMPLOYMENT

INTRODUCTION

This brochure contains a list of British Columbia manufacturing companies arranged alphabetically in size groups on the basis of employment, commencing with firms having 15 or more employees. Firms with employment under 15 have not been included because of the difficulty of presenting a list of such volume in this type of publication.

This listing is a supplement to the 1962 Trade Index. The original intention was to include the employment indicator after the name of each firm. However, technical difficulties with the employment data would have caused too great a delay in publishing the Trade Index.

The information was supplied by the manufacturing firms. A few firms did not list their employment, therefore coverage is not quite complete. Of the 5,563 firms in the British Columbia Trade Index, approximately 20 per cent have 15 or more employees.
